

## Payment and Financing Information

---

Most insurance companies consider laser vision correction surgery to be an elective procedure, therefore it is not covered under basic health or vision plans. Because Indiana LASIK Center does not want finances to get in the way of seeing a brighter future, patients are offered many payment options. These options include financing with low monthly payments through CareCredit. Patients may apply either on line at [www.carecredit.com](http://www.carecredit.com) or via phone at 1-800-365-8295.

**Financing must be approved and full payment made prior to the day of surgery.**

If your employer offers a flexible benefits plan, you may be able to pay for the procedure with pre-tax dollars through a health care spending account (Flex Plan).

Cost includes LASIK, as well as the post-operative checkups on the first day, one week, and three months after the procedure.

If you choose to pay cash, check, money order, or major credit card you will earn a discounted rate for the procedure.

For more information about financing or pre-approval, please contact our office at 1-877-664-2499.
